

Language Requirements Guidance for Employment Counsellors

To be eligible to apply to the FIN Program, candidates must have the necessary language abilities in English or French (minimum [Canadian Language Benchmark](#) of 7 or higher, in all four skills, CELPIP-G 7, IELTS 6, or other acceptable equivalents).

The following checklist will provide you with guidance when determining whether a candidate meets the language requirement.

If a candidate has any one of the following types of proof of language ability, they are considered eligible to apply to the FIN Program.

- **A diploma, transcripts, or certificate from a recognized, post-secondary institution indicating proof of successful graduation or the successful completion of a program in English or in French.**
 - ❖ The post-secondary institution may be in Canada or abroad.
 - ❖ The diploma, certificate or transcript should be in English or French. If the original document is not in English or French, a letter in English or French from the institution indicating that the language of instruction was in English or French must be included with a translation of the original document.

Note:

- ❖ A single course done in English or French does not meet the requirement. The document must clearly show that the program was completed with English or French as the language of instruction.
- ❖ Institutions must be recognized by Ministry of Education in the country in which it was awarded to be considered acceptable for language screening purposes. In cases where you are unsure whether the diploma, transcripts or certificates are from a recognized institution, you may request one of the other acceptable proofs below.
- ❖ If you are unsure whether the candidate's language ability is at a high enough level for success in the FIN program, you may request additional language proof or recommend additional language training after receiving proof of completion of post-secondary education in French or English.
